A CBSE DAY-CUM-BOYS' RESIDENTIAL SCHOOL

TERM-1 EXAMINATION (2025-26)

SOCIAL SCIENCE

MARKING SCHEME

CLASS: IV **Time: 2Hours**

Date: 3/09/2025 **Max. Marks: 40**

SECTION-A

1. People move to a new places for jobs, better places to live and for ……...
a. Book **b. Education** c. Friends d. Enjoyment 1

2. The …….. is the head of the municipal council. 1
a. The Chairperson b. Minister c. Sarpanch d. None of these

3. The Supreme Court is located at--------- 1
a. Thane b. Pune c. Mumbai **d. Dehli**

4. Which of these items is a safety feature found in cars? 1
a. Apron b. Helmet **c. Seat belt** d. Hat

5. ---------- is the top layer of the earth where plants grow. 1
a. Minerals b. Water c. Rock **d. Soil**

6. A------- is anything that is useful and helps meet our needs. 1
a. Resource b. Human c. Plant d. None of these

7. Which season is referred in the given below image? 1

a. Winter **b. Monsoon** c. Spring d. Summer

8. Which season in India is known for cold weather? 1
a. Summer **b. Winter** c. Monsoon d. All seasons

9. On which continent is India located? 1

a. Africa b. North America **c. Asia** d. Europe

10. There are ____ states and ____ Union Territories in India. 1
a. 29, 7 b. 27, 9 **c. 28, 8** d. 28, 7

SECTION-B

11. Define migration? What can be the reasons of migration? 2
Ans- Migration is the movement of people from one place to another, often with the intention of settling in the new location. For education, job opportunities and for better living place.
12. Define a government. Name the three levels of government. 2
Ans- A government is a group of people who make and carry out the rules for a community, like a city, state, or country. In many places, the government works at three main levels: local, state, and national (or central).
13. What is shown in the picture? Explain in your words. 2
Ans- In the above picture students are boarding the bus for going to school. They are following safety rules. They are passing from Zebra crossing, walking in line. Some are helping them.
14. What do you mean by climate? Mention factors that affect the climate of a place. 2
Ans- Climate refers to the average weather conditions of a place over a long period, like many years. It's what you can expect the weather to be like most of the time in a particular area. Several factors influence a place's climate. These include how far it is from the equator (latitude), how high it is above sea level (altitude).

15. Name any two Union Territories of India. Which is the smallest Union Territory of India by area? 2
Ans- Two Union Territories of India are Delhi and Puducherry. The smallest Union Territory by area is Lakshadweep.

SECTION-C

16. Imagine you are planning a picnic with your friends. Would you choose a sunny summer day or a cloudy autumn day for your picnic? Explain your choice with reasons. 3
Ans- A sunny summer day would be a better choice for a picnic than a cloudy autumn day. Sunny days are generally more pleasant for outdoor activities, with warmer temperatures and more opportunities for fun and games. Cloudy autumn days can be chilly, making it less comfortable to sit and relax, and they may also bring rain which would ruin the picnic.

17. State the types of resources with examples. What are the 5 Rs of conservation to them? 3
Ans- Resources can be broadly classified into natural resources, human-made resources, and human resources. The five R's of conservation are Refuse, Reduce, Reuse, Recycle, and Recover.

18. Observe the given image and explain the rules that one must follow while driving on the road.3
Ans- Traffic lights tell drivers when to stop, go, or slow down. A red light means stop completely before the white line, a yellow light means slow down and prepare to stop, and a green light means go if the way is clear. These rules help keep everyone safe on the road.

SECTION-D

Case Based Questions:
19. Read the case/source given and answer the following questions.

"A Problem in Green Nagar"

Green Nagar is a small town where people were facing a big problem – the streetlights were not working for many days. It became difficult for children to walk to evening classes and for elderly people to walk safely on the roads at night. A group of children from Green Nagar decided to write a letter to the

Municipal Corporation. They also met their Ward Councillor and explained the problem. Within a week, the streetlights were repaired.

1. What problem were the people of Green Nagar facing? 1

Ans- the streetlights were not working for many days.

2. Whom did the children contact to solve the problem? 1

Ans- Municipal Corporation and they also met their Ward Councillor.

3. What action was taken after the children reported the problem? 1

Ans- Within a week, the streetlights were repaired.

4. What does this case tell us about how local government helps citizens? 1

Ans- Local governments play a crucial role in the lives of citizens by providing essential services. They are often the first point of contact for citizens seeking solutions to local issues and are responsible for delivering services that directly impact daily life.

20. Read the case/source given and answer the following questions.

Sunpur is a small village that used to have enough water for farming and daily use. But this year, there was very little rainfall. The ponds dried up, and the crops began to wilt. The village head called a meeting and asked everyone to help save water. People stopped wasting water, used buckets instead of pipes, and started collecting rainwater using tanks. Soon, the situation improved, and they had enough water for daily needs.

1. Which natural resource was becoming scarce in Sunpur village? 1

Ans- There was very little rainfall

2. What steps did the people of Sunpur take to save water? 1

Ans- People stopped wasting water, used buckets instead of pipes, and started collecting rainwater using tanks

3. Why water is considered a natural resource? 1

Ans- As we get it from the nature, we cannot create it.

4. What lesson can we learn from the people of Sunpur? 1

Ans- Everyone should save water and other resources. There must be unity.

SECTION-E

21. Map based question.

On the given outline map of India, locate and label the following places:. (Any three) 3

a. China b. Sri Lanka c. Arabian Sea d. Bay of Bengal e. Ladakh
