6. What are the two major types of resources? Give examples of each.
7. How do traffic lights help us stay safe?
8. List any two functions of the state government.

**SECTION-C**

**(3×2=6)**

9. Why is it important to conserve natural resources? Mention two ways we can conserve them.
10. Write a short note on the central government.

**SECTION-D**

**(4×2=8)**

**Case Study:**

11. While working on an art project, Meera noticed a pair of scissors lying on the floor. She picked them up carefully and placed them on the teacher's desk. She then reminded her classmates to keep the classroom neat and safe.

**Questions**

1. Why did Meera move the scissors from the floor?
  2. What could happen if sharp objects are left on the floor?
  3. Where did Meera place the scissors?
  4. How can students help keep their classroom safe?
- 
12. A factory uses coal to produce energy. The manager informed the workers that coal takes millions of years to form and cannot be replaced quickly once it is used up. Therefore, it should be used carefully.

**Questions:**

1. Which resource is used by the factory?
2. Is coal a renewable or non-renewable resource?
3. Why should coal be used carefully?
4. Name one more non-renewable resource.

**ALL THE BEST**
