11. Sunrise Town is located near a large lake. Farmers grow crops on fertile land. Fresh air, clean water, plants, animals, and people make the town a healthy place to live. The residents save water and plant trees regularly.

Questions:

1. Name the domains of the Earth represented in the passage.
 2. Which domain is represented by the lake?
 3. Name any two components of the biosphere from the passage.
 4. Mention two ways the residents care for the environment.
12. During an ocean voyage, a ship crossed a line in the Pacific Ocean. The captain announced that the passengers would need to adjust their calendars because the date would change. He explained that this line roughly follows 180° longitude and is important for keeping track of dates around the world.

Questions:

1. Which line did the ship cross?
2. What happens when this line is crossed?
3. Along which longitude does this line roughly run?
4. Why is this line important?
