SECTION-B

11. **What was Chipko Movement?** 2
The Chipko Movement was a forest conservation movement in India where people **hugged trees** to prevent them from being cut down by loggers. It started in Uttarakhand to protect the environment.
12. **Why should we conserve minerals?** 2
We should conserve minerals because they are **non-renewable** and take millions of years to form. Once they are used up, they cannot be replaced quickly.
13. **Identify the country by the flag (Sri Lanka):** 2

- **Country:** Sri Lanka.
- **Two facts:** 1. It is an island nation located south of India. 2. It is famous for producing high-quality tea and spices.
- **14. Importance of an Island.** 2
An island is important because it provides a unique habitat for marine life, serves as a popular **tourist destination**, and often has a moderate climate helpful for specific crops like coconut.
- **15. Trees and animals found in the Southern Plateau.** 2
- **Trees:** Teak, Sal, Sandalwood, and Neem.
- **Animals:** Tigers, Elephants, Sloth bears, and Deer.

SECTION-C

- **16. Types of industries based on size.** 3
 1. **Cottage Industries:** Small-scale, usually run by people in their own homes (e.g., weaving).
 2. **Small-scale Industries:** Use small machines and employ fewer workers (e.g., making toys or garments).
 3. **Large-scale Industries:** Use huge machines, employ thousands of people, and require a lot of money (e.g., Iron and Steel plants).
- **17. Benefits of Southern Plateau vs. Desert.** 3
 1. **Rich Soil:** The plateau has black soil which is excellent for growing cotton, unlike the sandy desert.
 2. **Mineral Wealth:** The region is rich in minerals like coal and iron ore, providing more jobs.
 3. **Water Availability:** It has many rivers (like Godavari and Krishna) which make farming easier than in the dry desert.
- **18. Sources used by farmers to water crops.** 3
 - **Canals:** Channels that bring water from rivers to the fields.
 - **Wells and Tubewells:** Used to pump out groundwater.
 - **Dams:** Large structures that store river water for irrigation throughout the year.

SECTION-D

- **19. Northern Mountains Case:** 4
 1. **Ranges:** Himalayas and Karakoram.
 2. **Rivers:** Ganga and Yamuna (or Indus).
 3. **Protection:** They protect India from cold winds and help bring rain by stopping monsoon winds.
