

B.K. BIRLA CENTRE FOR EDUCATION

SARALA BIRLA GROUP OF SCHOOLS
A CBSE DAY-CUM-BOYS' RESIDENTIAL SCHOOL

PERIODIC TEST-I (2025-26) SCIENCE MARKING SCHEME

Class: VI

Date: 07/07/'25

Time: 1hour

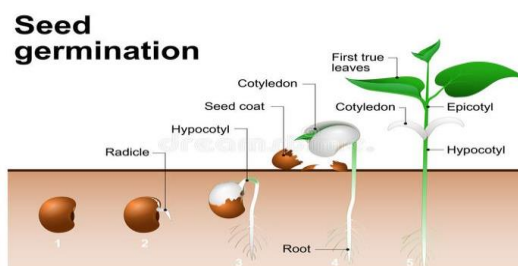

Max Marks: 25

SECTION- A

1. (c) Pea 1
2. (c) Curiosity 1
3. (b) To understand the world we live in and uncover the secrets of the universe. 1
4. (d) Habitat 1
5. (b) Thick fur on their feet 1

SECTION- B

6. Snow leopard, yak. 1+1
7. Shrubs are medium-sized plants with thin woody stems and branches at the base and closer to the ground. Examples: rose and Hibiscus. 1+1/2 +1/2
8. If it stopped raining on Earth, consequences for ecosystems, agriculture, and human societies Ecosystem Collapse: Water Scarcity: Drought and Desertification:
Crop failure: Global Temperature Increase: 1+1
9. 2

SECTION-C

10. Earth is unique as the only known planet supporting life, showcasing diverse ecosystems and species that thrive across different regions. 1.5

Water is highlighted as essential for life and described through its various forms and uses, from rain and freezing to boiling and hydration 1.5

11. The movement of animals from one place to another is called locomotion. Humming bird use their wings, Snakes use their scales to slither etc. 1+1+1

12. * It is desirable for the pumpkin to creep on the ground because it cannot bear the weight of the plant.

* The large, heavy fruits are better supported when the plant creeps on the ground.

* If the plant were to grow upright, the stems might not be strong enough to hold the weight of the fruits.

1+1+1

13. • Forests are large areas covered with a variety of trees and plants. They experience different climatic conditions.

1+1+1

• Grasslands are found in areas that receive moderate to low amounts of rainfall. They are generally dry and windy.

• A desert is a type of habitat characterised by extremely hot and dry weather during the day and cold weather at night. It receives very little rainfall throughout the year.

• A mountain habitat exists in high-altitude regions. As some of these regions may experience snowfall during the winter, their climate is generally cold and windy.

*****ALL THE BEST*****
