<b>Parameters</b>	Bookkeeping	I	Accountir	ng	

Parameters	Bookkeeping	Accounting
Scope	Bookkeeping involves identifying, measuring, recording & classifying financial transactions in the ledger accounts.	In addition to bookkeeping, Accounting also includes summarizing, interpreting and communicating the financial data to the users of financial statements.

Objective	The main aim is to maintain systematic records of financial transactions.	The main aim is to ascertain the profitability and financial position of the business.
Stage	It is a primary stage of accounting	It is a second stage and begins where book-keeping ends.

23. Give the Rules of Debit and Credit as per Traditional approach.

Personal – Dr. the receiver, Cr. The giver

Real – Dr. what comes in, Cr. What goes out

Nominal- Dr. all expenses and losses, Cr. All incomes and gains

## OR

Explain in detail what do you mean by an Account in three valid point.

Ans) An account is a record in the general ledger that is used to sort and store transactions. For example, companies will have a Cash account in which to record every transaction that increases or decreases the company's cash.

It has Dr and Cr side.

It needs to be balanced and carried forward for next cycle.

24. What is Cash memo? Prepare an imaginary specimen of cash memo.

-3

3

Ans) Whenever there is a purchase or sale of goods or services the trader receives or gives the cash, memo. The transaction is recorded in the book according to the details mentioned in the cash memo (i.e. item name, price, quantity, date, time, etc.)

### 25. Answer the below question:

3

- a) What is Journal?
- a journal is a primary book of accounts where business transactions are first recorded in chronological order, meaning in the order they occur. It's also known as the book of original entry because it's the initial place where transactions are documented before being transferred to other ledgers.
  - b) Name the process of recording transactions in the Journal.
- The process of recording transactions in the journal is called **Journalising** and recorded transactions are called Journal Entries.
  - c) What is opening entry?
- an opening entry is the initial journal entry made at the start of a new accounting period (usually a financial year) to record the balances of assets, liabilities, and capital carried over from the previous period's closing.
- 26. Explain the following with example (Any Two):

3

a) Going Concern Concept b) Accounting Period Concept c) Dual aspect Concept
